

Verification of Patient Identification on Unlabeled or Misabeled Specimen

Found at <http://intranet.cc.nih.gov/dlm>

Call the Department of Laboratory Medicine (DLM) and talk with laboratory personnel. A Senior Staff member will review the information and decide if the specimen can be reliably identified. Most unlabeled or mislabeled specimen will need to be redrawn.

If the request to accept a specimen that was not properly labeled is approved, print this form, complete the information below and send it via the pneumatic tube to Department of Laboratory Medicine, pneumatic tube station 39.

Date: _____ Entered by: _____

Entered For LIP (Name of the Prescriber): _____

Patient Name: _____ Medical Record Number: _____

Date of Birth: _____ Location / Room Number: _____

I am aware that the specimen was unlabeled/mislabeled for:
